REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Voters of the Town of Huntington:

Herewith is submitted my seventh report as Superintendent of Schools.

The following schools with average enrollments have been maintained for a period of thirty-five weeks as required by the laws of Vermont:

<i>School</i>	<i>Enrollment</i>
Catherine Ross, Grades 1-4	23
Catherine Ross, Grades 5-8	25
Center School	26
Hanksville	12

Some improvement in the percentage of attendance has been shown during the past few years. This indicates that parents realize more and more the advantages of regular attendance. Freedom from communicable diseases has also been a contributing cause of better and more regular school attendance.

At the beginning of the current school year, two new teachers were necessary to fill vacancies caused by resignations. On account of the acute shortage of teachers in the state, the problem of securing teachers to fill vacancies is becoming more difficult. The cause of such a scarcity may be attributed to two factors. In the first place, there are not enough boys and girls entering the teaching profession to replace the loss of those who discontinue teaching. In the second place, it is believed that salaries are not high enough to attract young people to the profession. To remedy this situation, we should encourage more high school graduates to take teachers' training.

During the past few years, the expense of transporting pupils has been increasing. At the close of the school year in June, 1941, a total of \$1,203.14 was spent for transporting thirty-one pupils or an average of \$38.81 per pupil. This sum will be reduced materially this year since some of the transportation routes have been discontinued.

The courses of study recommended by the State Department are being followed. A new basic reading method has been introduced into the Center School. It is desirable that a new method be adopted in the other schools as soon as possible. Since reading is one of the most important studies in a school, too much emphasis cannot be placed upon this subject.

As a result of a new rating of the schools made during the year, the standard and superior plates should be retained. This shows that the condition of your schools is satisfactory. In order to retain the plate on the Catherine Ross School, however, it will be necessary to make some provision for an adequate water supply for this building.

I would recommend that something be done to secure a supply of water for this school before the close of the present school year. If nothing is done, the rating will drop considerably below standard.

Since the training of our children constitutes one of the most important duties in a democratic nation, I would suggest that no effort be spared to have our schools function in a normal way during the critical days ahead.

In conclusion, I wish to thank the School Directors and the citizens of Huntington for your loyal support of the schools during the year.

Respectfully submitted,

EDWIN T. MALONEY,

Superintendent of Schools.

OLD AGE ASSISTANCE

W. Arthur Simpson, director of the Old Age Assistance Department at Montpelier, states as follows:

"Payments of Old Age Assistance to persons applying from your town amounted to \$2,769.00 during the year January 1, 1941 to December 31, 1941.

"The number of recipients in December, 1941, was 16.

"As this program touches every community and many persons, we believe the public should know the following facts:

"Expenditures for Old Age Assistance in Vermont amount to over \$1,000,000 a year.

"All payments are made on a budgetary basis and only after complete investigation by a trained social worker employed under civil service regulations.

"Since the beginning of the program, 96c out of every dollar available to the Department has been expended for the aged and only 4c used for administration.

"The increased cost of living and its effect on the budgets of some 5,600 aged persons currently receiving assistance, each month constitutes a serious problem impossible to solve because it is a financial one.

"This situation also prevents grants of assistance to new applicants who, in many cases, are quite as needy and deserving as those already receiving assistance.

"The resources of this department and its ability to make grants are determined by the state appropriation, which is matched by federal funds.

"The advice and counsel of local officials and interested persons have been very valuable and are gratefully acknowledged."

The Huntington Cemetery Trust Fund, at Burlington Savings Bank, is \$4,500.46, on February 1, 1942.

We have examined the accounts of all the Town officers and find them correct, with the exception of the School Directors' book, where we found school orders paid this year which should have been paid last year.

EVELYN H. SMALL,
GLADYS J. FULLER,
